The Association have decided to construct the monument of Kentucky stone-the magnesia lime-stone, which is said to be as indestructible as Egyptian granite itself; and we feel assured that the time is mear at hand when our cemetery will be adorned by one of the most graceful, imposing and enduring specimens of monumental architecture in the world. It is designed to lay the corner stone of this monument on the 12th day of April, the birth-day of the matchless orator and unsullied patriot unto whom it is to be will at least be broken on that day. The Hon. Snow BREAD .- We find the annexed paragraph in one of our exchanges. It is

All persons, where snow abounds, are not perhaps aware of the value of the fleecy cakes in making light, delicious and wholesome bread. There is no "raising" in the world so perfectly physiological as good, fresh, sweet snow, it raises bread or cakes as the best yeast, or the purest acids or alkalies, while it leaves no taint or fermentation like the former, nor injurious salt like the latter. Indeed it raises by supplying atmosphere wherewith to puff up the Jough, while the other methods only supply carbonic acid gas.

DIED.

On the 24th ultimo, at his residence north of Shel-yville, Maj. SHANNON REID, in the 50th year this age.

The tather of the subject of this notice, Judge Al-

exander Reed. was one of the early settlers of Shelby count; ;—a prominent and useful citizen, beloved and respected by all, and was frequently honored by the citizens of the county as a representative in the Legislature of Kentucky.—When far advanced in life, he emigrated to the State of Missouri, where, in a few years he died, leaving a family and numerous friends, who hold the many virtues of his life in sacrad temperature.

red remembrance.

Maj. Shannon Reid was a native of this county and resided here till his death. The companions of his youth were his devoted friends in manhood; and during his active career in the various pursuits of life, and the many transactions between him and his fellow man, he seldom lost a friend or made an enemy. Truly can we say, that Shelby county has lost one of her most useful and respectable citizens; one who always took an active interest in the welfare and prosperity of her citizens, and never faltered in the support of any enterprise calculated to promote the honor or interest of the county.—How often will the thought occur to our minds, that Shannon Reid is no more; -but he lives, and will ever live, in the

is no more;—but he lives, and will ever live, in the memory of his friends.

But the most prominent characteristic of Mr. Reid's life, was his devotion to the principles of his religion and his church. He was a Christian, and the duties of a Christian life were held sacred by him, and paramount to all others. May his bereaved companion find consolation in the thought, that he lived and died with the bright prospect of a happy immortality beyond the grave; and may his three youthful boys cherish in memory their father's virtues, and follow the counsels of his life, and live to be useful and honorable members of society.

For Making Liquers, Lecour's Oils require no preparation—only pour the Oil into the whisky and shake well. The liquors thus made will have a fine natural aroma, a full, rich, oily taste; a beautiful transparent color and a fine bead. Lecour's Oils exert three distinct properties in converting common whisky to brandy, gin, &c. The first property combines with and subsides in the form of ficculant particles the whole of the grain oil, (Amylic Alcohol.) The whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an oily mucillaginous taste imparted to the liquor, which renders it mellow, and imparted an appearance of great age; the third prop-

Everyb dy needs more or less purging. Purge more complaints.

Everyb-dy needs more or less purging. Purge the blood from its impurities. Purge the bowels, liver, and the whole viceral system from obstructions. Purge out the diseases which fasten on the body, to work its decay. But for disease we should die only of old age. Take antidotes early and thrust it from the system, before it is yet too strong to yield.

Ayer's Pills do thrust out disease, not only while it is weak, but when it has taken a strong hold. Read the actounding statements of those who have been cured by them from dreadful Scrofuls, Dropey, Ulcers, Skin Diseases, Rheumatism, Neuralgis, Dyspepsis, Internal Pains, Bilious Complaints, Heartburn, Headache, Gout, and many less dangerous but still threatening ailments, such as pimples on the face, Worms, Nervous Irritability, Loss of Appetits, Irregularities, Dizziness in the Head, Colds, Fevers, Dysentery, and indeed every variety of complaints for which a Purgative Remedy is required.

These are no random statements, but are authenticated by your own neighbors and your own physicians.

The man who is without an idea, generally has the greatest idea of himsel

A restlessness in men's minds to be something they are not, and for something they have not, is the root of all immorality. Neither look out far for troubles, nor be

entirely unprovided for them. Never be taken by surprise. As long as thou shalt live, seek to improve thyself; presume not that old age

will bring with itself wisdom. It is better to learn late than never.

April 18, 1855. TO ARCHITECTS AND BUILDERS. A ND all others who design erecting new dwellings or refurnishing old ones, the subscribers would

we are now manufacturing, and have constantly on hand, several different patterns of Cast Iron Mantels, of various styles. We have, for the last six months, been getting out our patterns, and perfecting our plans, so that we are now able to offer a better ar-

stances.

The advantages of these imitation Mantels over those of the pure Marble, are—

1st. Hest cannot affect them; 2d. Oils cannot stain them; 3d. Acids cannot injure them; 3d. At the cannot be easily broken or defaced; 5th. If defaced they can be repaired and made as good as new; 6th. They can be sold at about one-third to one-half less cost; 7th. They can be so accurally packed as to be transported to any part of the world.

Any good bricklayer can put these Mantels up.

We will warrant to sell a better article than can be bought'elsewhere more highly finished, and at as low ought'elsewhere, more highly finished, and at as low tree as in any other market in the United States. Call and examine for yourselves, at the northwest
